#### - PRESS -

"Inspired by acts from Radiohead to Real Estate, The Cordial Sins are making music to soundtrack both your dreams and existential pondering. Today, the band is bringing us a visually striking video to accompany their song "Go On", and to say it's an immersive experience is an understatement." - Idobi

"The group's 2015 debut album, Daze, is an endearing mix of alluring dreamscapes, ethereal ear-caressing melodies and progressive guitar work, bringing to mind a captivating collaboration between peak-era Lush and a younger, pre-Pop-abandonment Radiohead." - CityBeat
